17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Landowner decided not to complete this well as a water well. Efforts have been, and are now being, made to plug this well. The surface casing fell into the hole. Water from the well caused a pool around the well. It has been impossible to get a rig over the hole. In December, 1974, the ground just to the East of the well was built up with a bulldozer so that a rig can get over the well. As soon as weather permits and a rig can be obtained, this well will be plugged and abandoned in accordance with the Commission's regulations.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
