Dear Emery:

Just to keep my skirts clean I want to report that the bulldozer work on this location has not yet been done. I stated in a form 103 dated 1-10-75 that some work was done in December, 1974 on this location so as to be able to get a rig over the location. I thought the work had been done. I hired a contractor to do the work. The other day Mark Weidler and flew over the location to see if it had drained sufficiently to get a rig on the well and discovered that no work had been done.

I intend to get after this today and will keep you advised.

Sincerely,

*Lloyd Davidson*
