17. DIS. WIDE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.) *

This well was plugged and abandoned on February 20, 1974. Cement
plugs were set at the following depths:

100' across top of Entrada, 3600' to 3700'
100' across top of Dakota, 2340' to 2440'
100' across top of Hospah, 1400' to 1500'
100' across top of Upper Mancos, 400' to 500'
15 sacks at surface

Telephonic approval to plug the well in the foregoing manner was
obtained from Mr. Jerry Long, USGS in Durango, Colorado.

A dry hole marker will be erected, the pits filled and the
location restored.

18. I hereby certify that the foregoing is true and correct.
