Hospah #58  
Sec 12, T17N, R9W

Dear Mr. Kendrick:

The referenced well is a water injection well. We are submitting the following packer leakage data from a test taken on November 4, 1977.

UPPER ZONE:            0 bbls water  
                         680# pressure

LOWER ZONE:           688 bbls water  
                         120# pressure

In our opinion, this information indicates there is no communication between zones.

Yours very truly,

  
J. D. Hicks
