Hospah #59
Sec 12, T17N, R9W

Dear Mr. Chavez:

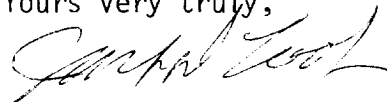

The referenced well is a water injection well. We are submitting the following packer leakage data from a test taken on December 15, 1980.

UPPER ZONE: 468 bbls. water
520# pressure

LOWER ZONE: 1180 bbls. water
240# pressure

In our opinion, this information indicates there is no communication between zones.

Yours very truly,

Jack D. Cook
