Each transporter of gas from a prorated gas well shall submit this form in duplicate to the appropriate district office of the Division within 30 days following the connection, reconnection, or disconnection of a well from a gas gathering/transportation system in accordance with Rule 1104, Rule 1105, and Rule 1106.

#### **4 Termination**

**4.1** EMNRD-OCD may, by written order, terminate this contract or any portion thereof after determining that, for reasons beyond either EMNRD-OCD's or the Contractor's control, the Contractor is prevented from proceeding with or completing the work as originally assigned, and that termination would therefore be in the public interest. Such reasons for termination may include, but need not be limited to, orders from duly constituted authorities relating to energy conservation, restraining orders or injunctions obtained by third-party citizen action resulting from national or local environmental protection laws or where the issuance of such order or injunction is primarily caused by acts or omissions of persons or agencies other than the Contractor or conditions in the well which make completion of the work impossible or impractical.

**4.1.1** If EMNRD-OCD orders termination of this Contract effective on a certain date, payment will be made for the actual number of units or items of work completed at the contract unit price, or as mutually agreed for items of work partially completed or not started.

**4.1.2** Acceptable materials, obtained by the Contractor for the work but which have not been incorporated therein, may, at the option of EMNRD-OCD, be purchased from the Contractor at actual cost, delivered to a prescribed location, or otherwise disposed of as mutually agreed.

**4.1.3** After receipt of notice of termination from EMNRD-OCD, the Contractor may submit a claim for additional damages or costs not covered above or elsewhere. Such claim may include such cost items as reasonable idle equipment time, mobilization efforts, overhead expenses attributable to the project terminated, legal and accounting charges involved in claim preparation, subcontractor costs not otherwise paid for, actual idle labor costs if work is stopped in advance of termination date, guaranteed payments for private land usage as part of the original contract, and any other cost or damage item for which the Contractor feels reimbursement should be made. In no event, however, will loss of anticipated profits be considered as part of any settlement.

**4.1.4** The Contractor agrees to make all cost records available to the extent necessary to determine the validity and amount of each item claimed.

**4.1.5** Termination of this contract or portion thereof shall not relieve the Contractor of any contractual responsibilities for the work completed.

**4.2** In the event the Contractor defaults on its obligations hereunder, as more specifically defined herein, EMNRD-OCD will give notice in writing to the Contractor of such default and will specify those provisions which have been violated and the corrective measures to be taken. If the Contractor, within a period of ten (10) working days after such notice, does not proceed in accordance therewith, then EMNRD-OCD may terminate this contract for breach and pursue any or all of the remedies contained herein.

**PERTINENT INFORMATION**  
**IN ACCORDANCE WITH THE NM PUBLIC WORKS MINIMUM WAGE ACT**

Issue of this wage rate determination is made pursuant to Chapter 13, Section 13-4-11, NMSA 1978, and with duly adopted rules and regulations properly registered with the State Records Center as required by State Rules Act, Section 14-4-5 NMSA 1978.

**THIS WAGE RATE DECISION SHALL BE AN INTEGRAL PART OF THE PROJECT SPECIFICATIONS, AND CONTRACTING AGENCIES MUST INSURE COMPLIANCE WITH THIS PROVISION BEFORE THE PROJECT IS ADVERTISED FOR BID, A CONTRACT IS SIGNED OR PAYMENT IS MADE TO THE CONTRACTOR.**

The contractor/subcontractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week, and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment, computed at wage rates not less than the wage rates stated in this wage rate decision for this project.

A few of the most pertinent provisions under this contract follow:

1. The contractor and each subcontractor must submit one complete, legible, certified weekly payroll record to the Labor and Industrial Division (at the above address). Another copy must be sent to the contracting agency. Both copies must be mailed not more than five working days following the close of the second payroll period. Weekly payrolls may be submitted bi-weekly.
2. Include the payroll clerk's phone number and all of the following information:
  - A. The employee's full name, address and social security number.
    - (1) An employee's full name and social security number need only appear on the first payroll he/she is on.
    - (2) An employee's address must be shown only on the first payroll submitted on which his/her name appears, unless a change of address necessitates an additional submittal to reflect the new address.
  - B. The employee's job classification (or classifications).
  - C. The employee's hourly wage rate (or rates); the employee's hourly fringe benefits; and, where applicable, his over time hourly wage rate (or rates).
  - D. The daily and weekly hours worked in each classification, including actual overtime hours worked (not adjusted).
  - E. The itemized deductions made.
  - F. The net wages paid.
  - G. The number of the project wage rate decision (from top right of decision), including the county.
3. Certify and number each payroll, starting with one (1) for the first payroll as each contractor/subcontractor starts on the job and continuing in numerical order (including weeks of no work) until the job is completed with the last payrolls marked final.
4. Any apprentices, pre-apprentices, or trainees employed on this project must be duly registered in a bona fide apprenticeship program registered with the State Apprenticeship Council or recognized by the Bureau of Apprenticeship and Training, US Department of Labor. Certification showing registration status of apprentices, pre-apprentices, or trainees must accompany the first full payroll on which each apprentice, pre-apprentice, or trainee appears. There must be at least one journeyman on the job site in the same job classification for each apprentice during the hours worked by the apprentice.
5. **A POSTER OF MINIMUM WAGE RATES TO BE PAID ON THIS PROJECT MUST BE POSTED BY THE CONTRACTOR IN A PROMINENT AND EASILY ACCESSIBLE PLACE AT THE JOB SITE.**

When a job classification not listed in this determination, is to be employed on this project, the contractor or contracting agency may make a written request for such classification to the DIRECTOR, LABOR AND INDUSTRIAL DIVISION at the above address. If approved, an addendum will be issued. If a rate is not requested or not approved, the free market shall determine the rate paid.

Fringe benefit payments may include medical and hospital care, pensions on retirement or death, compensations for injuries or illness resulting from occupational activity or insurance to provide for any of the foregoing unemployment benefits, life insurance, disability and sickness insurance, accident insurance, vacation and holiday pay, cost of apprenticeship or other similar programs or for other bona fide fringe benefits that are not required by other federal, state or local law. Method of paying predetermined fringe benefits is set out in section 13-4-12, B., NMSA 1978.

Section 13-4D-1 to 13-4D-8, NMSA 1978 provides for employers to make contributions to approved apprentice and training programs in New Mexico in which the employer is a participant or to the Public Works Apprenticeship and Training Fund administered by the Public Works Bureau, Labor and Industrial Division, New Mexico Department of Labor. Contributions to approved programs shall be made in the same manner and amount as contributions required pursuant to wage rate determinations made by the Director. Certification is also required. For job classifications with apprenticeship contributions required, the rate is listed along with the base and fringe benefit rates.

Additional information may be requested from the LABOR & INDUSTRIAL DIVISION, PUBLIC WORKS BUREAU, 1596 Pacheco Street, Suite 105, Santa Fe, NM 87505.

### ALTERNATE PROCEDURE PROVISIONS

1. If changes in procedures are initiated by the EMNRD-OCD that will require time, materials, equipment or supplies beyond those required by the original turnkey procedure, charges for these will be paid by the EMNRD-OCD based on the Supplemental Bid Rates.
2. Should there be charges above those required by the original turnkey procedure that are not covered by the "Supplemental Bid Rate Schedule," these charges must be competitive with area vendor prices. These may be billed as Third Party charges if not supplied by the primary contractor.
3. If changes in procedures are initiated by the EMNRD-OCD that will require less time, materials, equipment or supplies than those required by the original turnkey procedure, the EMNRD-OCD reserves the right to revert to hourly charges plus actual cost for materials, supplies and equipment used for the work performed. Minimum payment will not be less than twenty-five percent of the original turnkey bid.
4. If problems are encountered which could not be reasonably foreseen by a review of the EMNRD-OCD records and an on-site inspection, the contractor will be required to make a reasonable and good faith effort to resolve these problems under the turnkey provisions. If these reasonable efforts fail, any time, materials, equipment or supply costs required to correct these problems will be billed to the EMNRD-OCD in addition to the turnkey price based on the Supplemental Bid Rates. The EMNRD-OCD reserves the right to discard the turnkey bid and to be billed solely at the Supplemental Bid Rates if it is determined that the problem is unresolvable or cost prohibitive. Minimum payment will not be less than twenty-five percent of the turnkey bid.
5. A "Third Party" charge is defined as charges for goods, services or equipment furnished by a company or individual other than the primary vendor. All Third Party charges must be billed to the primary vendor. The primary vendor should include in his bill to the EMNRD-OCD a listing of all Third Party charges supported by invoices and field tickets from the Third Party vendors, unless the charges are covered by the supplemental bid data. In that case, listing the charge on the invoice is the only requirement. No service charge will be paid by the EMNRD-OCD for the handling of Third Party charges. Failure to timely pay Third Party vendors may result in removal from the state funded-plugging/remediation/restoration bid list.
6. Under no circumstances will the EMNRD-OCD pay travel allowances or crew per diem.

### General information

Should the successful bidder fail to proceed in accordance with this provision, the EMNRD-OCD reserves the right to withdraw the award and use the second lowest and best bidder capable of performing services as specified.

This Agreement shall terminate six months after execution of the contract by EMNRD-OCD, unless terminated pursuant to paragraphs 4 or 9, infra.

### **4 Termination**

**4.1** EMNRD-OCD may, by written order, terminate this Agreement or any portion thereof after determining that, for reasons beyond either EMNRD-OCD's or the Contractor's control, the Contractor is prevented from proceeding with or completing the work as originally assigned, and that termination would therefore be in the public interest. Such reasons for termination may include, but need not be limited to, orders from duly constituted authorities relating to energy conservation, restraining orders or injunctions obtained by third-party citizen action resulting from national or local environmental protection laws or where the issuance of such order or injunction is primarily caused by acts or omissions of persons or agencies other than the Contractor or conditions in the well which make completion of the work impossible or impractical.

**4.1.1** If EMNRD-OCD orders termination of this Agreement effective on a certain date, payment will be made for the actual number of units or items of work completed at the contract unit price, or as mutually agreed for items of work partially completed or not started.

**4.1.2** Acceptable materials, obtained by the Contractor for the work but which have not been incorporated therein, may, at the option of EMNRD-OCD, be purchased from the Contractor at actual cost, delivered to a prescribed location, or otherwise disposed of as mutually agreed.

**4.1.3** After receipt of notice of termination from EMNRD-OCD, the Contractor may submit a claim for additional damages or costs not covered above or elsewhere. Such claim may include such cost items as reasonable idle equipment time, mobilization efforts, overhead expenses attributable to the project terminated, legal and accounting charges involved in claim preparation, subcontractor costs not otherwise paid for, actual idle labor costs if work is stopped in advance of termination date, guaranteed payments for private land usage as part of the original contract, and any other cost or damage item for which the Contractor feels reimbursement should be made. In no event, however, will loss of anticipated profits be considered as part of any settlement.

**4.1.4** The Contractor agrees to make all cost records available to the extent necessary to determine the validity and amount of each item claimed.

**4.1.5** Termination of a contract or portion thereof shall not relieve the Contractor of any contractual responsibilities for the work completed.
