(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Nerdlihc is currently experimenting with a new tubing heating system to eliminate paraffin build-up problems associated with this field's Dakota production. Testing will be evaluated over the next 3 months, whereafter the Dakota wells on this field will be upgraded sequentially.

It is anticipated that this well will be the subject of the new installation, with formation rejuvenation be January 1993.

We request that the status of this well be maintained as shut in until the end of the proposed work, the end of January 1993.

THIS APPROVAL EXPIRES JAN 31 1993

14. I hereby certify that the foregoing is true and correct
