P.O. Box 2182  
Santa Fe, NM 87501

Re: SFPRR Co. #20 G-20-16N-6W

Dear Mr. Davidson:

As you are aware the referenced well was completed 3-15-76, with an IP of 1 BO/D and 71 BW/D. Except for C-104's showing change of ownership, we have had no reports since 4-3-78.

A recent field inspection reveals that no effort has been made to produce the well. You are hereby directed to put the well on production or plug and abandon it within 60 days. Failure to comply will result in a case being called for your company, American Employers Insurance and other interested parties to appear and show cause why the well should not be plugged and abandoned.

If you have any questions, please contact this office.

Yours truly,

Charles Gholson  
Oil & Gas Inspector
