Santa Fe, NM 87501

Re: SFPRR #20 G-20-16N-6W

Dear Mr. Davidson:

Due to the nature of the delay in W.R. Oil and Gas Company starting their project in the area of this well, I see no problem in allowing a one year extension to the time required to plug this well until December 31, 1987. Because of the remoteness of this area, I am recommending to Mr. Stamets that the bonding requirement for this well be raised to \$10,000 under the authority of Rule 202 due to its remote location.

Sincerely,

Frank T. Chavez
District Supervisor
