SUBSEQUENT REPORT OF:

WATER SHUT-OFF ☐  
FRACTURE TREATMENT ☐  
SHOOTING OR ACIDIZING ☐  
(Other) ☐

REPAIRING WELL ☐  
ALTERING CASING ☐  
ABANDONMENT\* ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

On January 15, 1987 Merrion Oil & Gas Corporation (Merrion) submitted geologic, engineering economic data and a copy of the BLM approval letter of the Ojo Encino Cooperative Agreement which caused approval of a six month abeyance to August 1, 1987 before drilling operations were to begin to save the above lease from abandonment. Since that time Merrion has negotiated the purchase of 100% of the Entrada operating rights involved within the boundaries of said Cooperative Agreement. Merrion filed a Sundry Notice dated 6/17/87 which gives us until January 31, 1988 to drill a new well (the Federal 21-4) in the SE/4 SW/4, Section 21, Township 20 North-Range 5 West, NMPM. Merrion has staked said well and is in the process of obtaining archaeological clearance. Being that production must be established prior to January 31, 1988 and being that we will be drilling during the winter, the probability of confronting poor weather conditions is high. In order to avoid any possibility of losing said lease we hereby request an additional five months (June 30, 1988) to drill the aforementioned well.

THIS APPROVAL EXPIRES 6/30/88

18. I hereby certify that the foregoing is true and correct
