17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

THIS SUNDRY NOTICE AMENDS OUR PREVIOUS SUNDRY DATED NOVEMBER 28, 1990.

This well is currently in temporarily abandoned status. Request that this status be continued for an additional nine (9) month period.

We are currently making application to the Environmental Protection Agency, Region 9, San Francisco, California for permission to inject water into the Point Lookout Interval (approximately 2825-50' sub-surface) of the Mesa Verde Formation in the subject area utilizing our Noo Navajo #2 Well (NW/4NE/4, Sec. 13, T20N, R6W, NMPM) as a water injection well.

Based upon results from the subject water flood, this well may either be used as a production well in the field, or for an additional water injection well.

This well was drilled in 1978. Cement was circulated to surface and no contamination of other formations is expected.

THIS APPROVAL EXPIRES SEP 01 1991

18. I hereby certify that the foregoing is true and correct
