13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In a letter dated April 15, 1994, you gave Merrion Oil & Gas Corporation permission to shut in the Federal 15-2H until October 10, 1994. The well is down needing an engine repair on the electric generator, which here-to-for was uneconomic to fix. However, we have recently sent the engine in to get overhauled, and expect it to be repaired by early November. We should have the engine reinstalled and the well back on by early December. Therefore, we request your approval of a 60-day extension on the shut-in period, allowing us until December 9, 1994 to get the well back on.
