(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas Corporation request permission to shut-in the field until October 1, 1996 and still maintain the Unit. The PWU No. 1 was redrilled in October of this year. It produced 1004 barrels of oil and 85476 barrels of water in October and November. It was shut-in on December 12, 1995 with a water cut in excess of 99%.

In the summer of 1996, we plan to re-enter the PWU #4 (previously Navajo Allotted 15-4) and attempt another horizontal well on the south end of the Unit. We need permission to leave the Unit shut-in until that can happen.

14. I hereby certify that the foregoing is true and correct

Signed

Steven S. Dunn
