13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas Corporation hereby requests approval to shut-in the PWU No. 1 producing well effective June 1, 1995. The electric submersible pump is broke and not economic to repair under today's operating conditions. We are in the process of permitting one, and maybe two horizontal wells to be drilled in the Papers Wash Unit this summer. When these wells are completed we plan to resume production. We estimate production would commence around October 1, 1995 or earlier.

Because the Papers Wash Unit is comprised of Navajo Indian as well as other types of leases, we need shut-in approval to avoid lapse of production on the Indian lease portion for the next several months.

If further is needed, please advise.

THIS APPROVAL EXPIRES 06/01/1995
