13. Describe Proposed or completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The PWU #3 is currently shut in due to failure of the MIT in October, 1995.

Merrion Oil & Gas plans to drill an additional horizontal producing well in this field. If the well produces in commercial quantities, the PWU #3 will be needed for water disposal.

Immediately after completion and testing of the producing well, we propose to diagnose and repair the problem in the PWU #3.
