**Re: Amendment to Injection Interval;  
Santa Fe '20' Well No.2 - SWD  
Unit 'F', Section 20, Township 21 North, Range 8 West.  
Division Order R-7308.**

Dear Ms. Dinning:

Reference is made to your recent request to amend the injection interval in the subject salt water disposal well.

My staff has reviewed your request and as all provisions of Rule 701.B of the Division Rules and Regulations have been met, you are hereby authorized to perforate additional zones within the original upper and lower limits as permitted by Division Order R-7308. It is our understanding that these zones will be located at approximately 5,666 to 5,686 feet and 5,692 to 5,698 feet. Maximum injection pressure shall remain 1155 psig.

Further, this amendment is hereby made a part of Division Order R-7308, and all other provisions of such order, not inconsistent herewith, shall remain in full force and effect.

Sincerely,

  
William J. LeMay  
Director
