Surface Development Plan,  
Proposed Panos Investment  
Company "D" Federal, Well No. 2.  
McKinley County, New Mexico

U. S. Geological Survey  
P. O. Box 1809  
Durango, CO 81301

Gentlemen:

The surface use and operations plan for the proposed Panos Investment Company "D" Federal, Well No. 2, are as follows:

1. Existing Roads:

- A. Exhibit "A" is a portion of general highway map showing the location of the proposed well as staked. Go south out of Cuba, New Mexico, approximately one mile on State Highway No. 44, turn west on State Highway No. 197 approximately ten miles, leave black-top pavement at this point and drive approximately seventeen miles west to Ojo Encino School. The proposed location is approximately  $1\frac{1}{4}$  miles west of Ojo Encino Trailer School on the east side of road.
- B. Exhibit "B" is a plat showing all existing roads within a one-mile radius of the wellsite, as well as the planned access road.

2. Planned Access Roads:

- A. Length and Width: The required new road will be 100' long and 12' wide, constructed of graded surface material compacted and watered to a depth of 6". New road will leave existing road with a full "Y" and extend eastward to the northwest corner of drilling pad. This new road is labeled and color-coded red on Exhibits "A" and "B".
- B. Turnouts: None required.
- C. Culverts: None required.
- D. Cuts and Fills: The road will follow contour lines to reduce cuts and fills. The road will be drained with water bars as needed.
- E. Gates and Cattleguards: None required.
