Re: Status of Crownpoint #1

Gentlemen:

It is now apparent to this office that no more effort will be made to produce the above referenced well. As you are aware, said well lies within what is now known as the Gallup water basin. In order to prevent possible contamination of fresh water, your temporary abandonment order, which expires 4-22-81 is hereby rescinded and you are directed to plug & abandon said well within 60 days.

If there are any questions, please contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Charles Gholson".

Charles Gholson
Deputy Oil & Gas Inspector
