ABANDONMENT*

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request this well be placed in inactive status. Well is capable of producing 1 - 3 B.O.P.D. Well will not pump-up due to either hole in tubing or defective pump. Cannot justify repairs at current crude oil prices. Geological studies indicate a gas zone behind the pipe in the well. However, nearest market is 4-1/2 miles distant at Gas Company of New Mexico Star Lake compressor station. Cannot justify construction of pipeline at current gas prices.

Cement was circulated to surface in this well and Bond Log shows good bonding. Casing is sound. No ground water contamination is contemplated.

Two other wells on this lease will remain on production.

THIS APPROVAL EXPIRES FEB 06 1991
