Re: Petroleum Development Corporation  
Lee 19 #1  
C-19-16N-9W

Dear Mr. Sanders:

A recent field inspection revealed that the surface plug for the above captioned well has not been set and the marker has not been cemented in place. Junk has not been cleared from the location.

Also noted was the fact that the #1Y well had been drilled. We have not received the drilling reports which are due within ten days of the completion of each project such as cementing casing, treating, etc.

Please advise this office when the #1 well has been plugged.

Please file the delinquent paperwork for the #1Y well.

Yours very truly,

A. R. Kendrick  
District Supervisor

Re: Plugging Reports

Gentlemen:

Form C-103, Notice of Intention to Plug, your Lee 19 <sup>#1</sup>  
Lease Well No.

S-19-16N-9W was approved 11-27-78. Your  
Unit S-T-R

subsequent notice of plugging cannot be approved until a commission representa-  
tive has made an inspection of the location to see:

- (1) all pits have been filled and leveled;
- (2) a steel marker, 4" in diameter and approximately 4' above mean ground level, must be set in concrete, this marker must have the quarter-quarter section or unit designation, section, township and range numbers, which shall be permanently stenciled or welded on the marker;
- (3) the location shall be cleared and cleaned of all junk;
- (4) the dead man wires must be cut.

The above are the minimum requirements.

Please notify us by filling in the blank form below when this work has been done so that our representative will not have to make more than one trip to the location.
