McKinley County

Dear Mr. Kirby:

As I explained by telephone last week, we need the spud date, the amount and size of surface casing, when and how the surface casing was cemented and tested.

Prior to approval for any plug back, we need the formation tops of all zones penetrated; one copy of each electric and/or radio active log run; and form C-103, Notice of Intention to Plug Back, which details the intended plugging operations.

The subsequent report of plug back shall contain the amount of cement used in each plug along with how and where each plug was set.

A copy of Rule 1103 is enclosed for your convenience.

After a well is completed products cannot legally be sold until Rules 1104 and 1105 are complied with (copies enclosed).

If there are questions, please contact us.

Yours very truly,

*A. R. Kendrick*  
A. R. Kendrick  
District Supervisor
