DESCRIPTION:

N/2 of Section 28, Township 30 North, Range 12 West, NMPM, San Juan County, New Mexico.

The above-named company is hereby authorized to commingle gas and condensate production from the Flora Vista-Mesaverde and Basin Dakota Pools in a common tank battery and in a common gas sales line and to determine the production from each pool by well tests. (If this method is to be authorized, all commingled production must be of marginal nature; further, the operator shall notify the Santa Fe office of the Division in the event any well in the commingled battery becomes capable of top allowable production, at which time the Division will amend this order or take such other action as may be appropriate.)

FURTHER: The operator shall notify the Aztec District Office of the Division upon implementation of the commingling process.

NOTE: This installation shall be installed and operated in accordance with the applicable provisions of Rule 303 of the Division Rules and Regulations and the Division "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.
