13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Since filing a Sundry Notice in June 1995 indicating our intent to plug and abandon this well, we have decided to include it, as well as other wells operated by us at Franscian Lake, in the November 1995 auction of properties by the Oil & Gas Asset Clearing House, Houston, Texas. This well produces from the same interval as others in the field currently under water flood. New owner may decide to re-work the subject well and include it in the existing secondary recovery project. Request an additional 6 month period until February 1, 1996 in which to evaluate subject well before plugging and abandoning the same.
