Attention: Mr. Gary Blanks

Administrative Order NSL-1238

Gentlemen:

Reference is made to your application for approval of a non-standard location for your SFPRR Well No. 23 to be located 1210 feet from the North line and 650 feet from the East line of Section 29, Township 16 North, Range 6 West, NMPM, Miguel Creek-Gallup Pool, McKinley County, New Mexico.

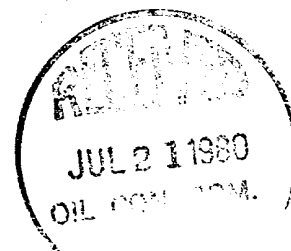

By authority granted me under the provisions of Rule 6 of Order No. R-4875, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY,
Director

RE: Commission Order-R-4875

Mr. Ramey,

At the present time, Zenith Energy Corporation is the operator of the Miguel Creek-Gallup pool. We have taken over operations from the Northern Minerals Incorporated.

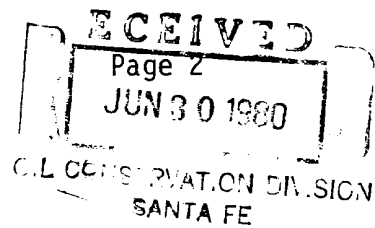

Enclosed is information requested for an additional well in the Miguel Creek, and it should be in compliance with the operating rules for the water flood project in the Miguel Creek-Gallup pool, McKinley County, New Mexico, Case #5321.

As requested in Paragraph 6 of the Commission Order-R-4875, we seek approval for the location of the SFPRR #23.

- (a) A plat, marked exhibit "A" is enclosed showing the new location and the partical acreage now being held by Zenith Energy Corporation. Also marked "A" is a copy of the Commission well location and acreage dedication plat.
- (b) Marked "B" is a downhole well schematic that includes the casing, tubing, and the openhole section,
- (c) As of the present time there are no offset producers in the Miguel Creek Field. Therefore, no letter to the offset operators is enclosed.
- (d) The SFPRR #23 well will be a production well. If at a later date the well is converted to a water injection the proper information will be filed.

June 25, 1980

(e) No water, oil, or gas-strata have been found above the Gallup pay zone.

This information should be satisfactory with the rules setforth in the Commission Order-R-4875. If any additional information is needed, please feel free to contact me.

Yours truly,

Gary Blanks
