12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

A Notice of Intention to Plug and Abandon was submitted and approved by your office on October 7, 1991.

In preparation to plugging this well, the rods, down hole pump and tubing were pulled out of the hole. The sucker rods and tubing were found to be oil wet when pulled. A check of the fluid level and fluid type revealed that the fluid level was 90 ft. from surface and the fluid was crude oil. Run tubing, sucker rods and a new down hole pump back in hole. End of tubing at 358' GR.

Place well on production December 21, 1991.

Enerdyne would like the status of this well changed back to a pumping oil well.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
