Richardson, Texas 75080

Re: Jeffrey Federal 34 #1, 34-17N-9W

Dear Mr. Jeffrey:

If you have taken over as operator of the above well I need a copy of the federal form 3160-5 (formerly 9-331) that you filed with the Bureau of Land Management, to change operator. If this is in error, please disregard this letter.

This well was also permitted as an oil well with 40 acres, but completed as a gas producer. A new plat (form C-102) needs to be sent to this office to rededicate 160 acres. I have enclosed this form for you.

Since this well is on federal land, a state plugging bond is not needed. The state bond can be cancelled by writing Diane Richardson, Bonds Administrator, Box 2088, Santa Fe, N.M.

I have also enclosed form C-104 that is to be filed per rule 1104, when a pipeline is designated and the well is ready to produce.

If I can be of any help, please call.

Sincerely,

A handwritten signature in cursive script that reads "Luanne Hisel".
