Re: State #33, H-28-20N-09W

Dear Mr. Woods:

A recent field inspection indicated that the referenced well is producing into a common tank. This office has not received any sundry notices of spud report, setting of surface or production casing, completion reports, electric logs or a request for allowable. The referenced well is to remain shut-in until those items are received by the district office. Division forms C-103, C-104, and C-105 are enclosed for your reference.

Yours truly,
