13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Chaco Wash No. 1 is currently shut-in due to muddy surface conditions. When conditions improve, Merrion plans to move on and test additional Gallup intervals. We anticipate test completion by July 1, 1993. At that time Merrion will file additional well history and either hook the well up for sales or file for P&A.
