FARMINGTON, NEW MEXICO

January 12, 1962

Mr. Emery C. Arnold
New Mexico Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Mr. Arnold:

Enclosed please find five copies of Form C-110 filed for the purpose of change of operator on the Williams Petroleum Company's No. 1 Jicarilla Federal well located in Unit G, Section 11, Township 23 North, Range 4 West, Ballard Picture Cliff field, Rio Arriba County, New Mexico.

The well is shut-in at present by the Commission due to delinquent production reports. The Production reports (C-115) are being filed from the Dallas office today.

As soon as all reports are cleared we would like to have El Paso notified that the well may be produced in order for us to run a late 1961 deliverability test.

If you have any questions on this well please give us a call.

Yours very truly,

SOUTHERN UNION PROD. CO.

L. S. Muennink
Production Superintendent
