17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Dome Petroleum Corp. intends to permanently plug and abandon this well based on the information currently available. The records we received from the previous operator are incomplete and we would appreciate it if you could supply us with a copy of the completion report, production data, and any other information in your well file in order that we may thoroughly evaluate any remaining production potential. Once we have obtained complete records we will submit a plug and abandon procedure. We tentatively propose to plug this well during the summer of 1983.
