DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Prior to the abandonment of subject well, it was the opinion of our company that we would delay same until conclusive results were obtained on offsetting wells drilled in this area.

Permission is now requested to proceed with plugging program as outlined in application approved by your office under date of September 5, 1962.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
