(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)			
17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*			

This well was drilled by Shar-Alan Oil Company. Casing was run and cemented through the Pictured Cliffs. The Pictured Cliffs was squeeze cemented from 3172-3173'. The cement has not been drilled out. Dyna Ray purchased Shar-Alan's wells in the Regina area. In our opinion insufficient sand is present to warrant additional expenditures. We request permission to plug and abandon by pulling the 4½" casing, spotting 25 sacks of cement on the casing stub, filling hole with mud, spotting 25 sacks in and out of the 8 5/8" surface casing, erecting a dry hole marker and restoring the surface.

18. I hereby certify that the foregoing is true and correct
