Dear Dewey:

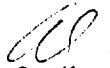

Mr. Hubert Lesperance of the El Paso Natural Gas Company advised us that El Paso cannot take gas from the captioned well until a Certificate of Convenience and Necessity is issued to Mr. Florance by the Federal Power Commission.

It is possible that Mr. Ray is in the process of filing the application for the certificate.

When the legal problems have been solved, we can authorize the production for testing.

If there are questions, please contact us.

Yours very truly,

  
A. R. Kendrick  
Engineer, District #3
