Re: Order R-5307  
Juanita Frank  
Greathouse #1  
C-10-23N-1W

Dear Mrs. Frank:

The following is my understanding of an agreement I made today with Mr. Ray Frank regarding the subject well:

1. He will file two additional copies of the forms C-103 as those we received here January 14, 1977, tomorrow.
2. He will also file form C-105 in quintuplicate for the subject well.
3. He will advise me by telephone at least 24 hours in advance of any field operations of the time operations are to begin.
4. He will begin field operations late this week.

Mr. Frank was advised that any further delay will result in a demand being made to the bonding company to complete the plugging operation.

If there are further questions, please contact me.

Yours very truly,

A. R. Kendrick  
Supervisor, District #3

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Drilling of the well was completed 7 18 1975 and was logged 7 19 1975. This well site has unusually thick layers of bentonite and it was a problem to keep the mud at 40 vis. or less to prevent the bit from balling. A long tooth bit was necessary but bit balling was still a problem. Well was drilled to 3259 ft. Geologist said log doesn't look good and not to run pipe but to plug and abandon. Will get second geologist's opinion. The pictured cliff formation is almost pinched out and will not produce.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
