17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Drilling of well proceeded with but one problem. Bentonite layers are very heavy & thick in this area & bit ballooning was the one problem. Mud vis. had to be 40 or less & a long tooth bit was required. Well was drilled to 3259' & logged 7-19-75. Geologist said log didn't look good & not to set pipe, but Plug & abandon. We get second opinion on log. Not good.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
