17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Based on an engineering evaluation of this area it was discovered that our present drilling plan was uneconomic. This has caused us to postpone the drilling of this well indefinitely. Evaluations are currently underway to develop a new program which will be economically feasible and adequately drain the reservoir. Your office will be notified of any changes in status of this well.
