Attention: Mr. Joe Ramey

Dear Mr. Ramey,

As per your request we are asking for a non-standard location for the Apache Hills No. 6. The original was staked 990/N and 1850/W of Section 17-T23N-R3W, Rio Arriba County, New Mexico. Actual drilling site is 1326/N and 1843/W of Section 17-T23N-R3W, Rio Arriba County, New Mexico.

I am at a loss as to why the actual location is 300' from where originally staked unless it was due to extreme wet, muddy conditions during the actual building of the location.

I own the Pictured Cliffs rights in all of Sections 17, 8 and 7. The 300' difference between the original and the actual location in this case should not effect any other operators.

Enclosed please find resurvey plats showing actual location of wellhead.

Very truly yours,

Jack A. Cole
