7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

It now appears our drilling rig will not start drilling for us on a three well program until July 25 to August 10, 1980. This is the 3rd well in our program and we anticipate spudding it between August 25 and September 10. A 90 day extension of our approval to drill this well would be appreciated.

We would appreciate your also reducing the amount of surface pipe from 300' to 280'. This is necessary in that our 8 5/8 joints are approximately 40' in length.

Cement will be placed across the top of the Mesaverde and across the top of the Pictured Cliffs as you requested.
