Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and points pertinent to this work.)

Based upon circulating 75 barrels of cement on our Dunn # 4 well on 6/29/81, the purpose of this notice is to change our long string cement plans on the second stage of this well to 800 sacks of filler cement or the approximate number of sacks it took to circulate this stage on our Dunn # 4 well. The above was verbally notified to Ray Swanson June 30, 1981. If this change is not approved, please telephone us at 993-1228 in Santa Fe prior to July 7, 1981.
