Administrative Order No. DHC-540

W. B. Martin & Associates Inc.
709 North Butler
Farmington, New Mexico 87401

Attention: W. B. Martin, Jr.

Re: Martin-Whittaker Well No. 57, Unit C,
Sec. 5, T-23-N, R-5-W, NMPM, Rio Arriba
County, New Mexico; Wildcat Gallup and
Wildcat Dakota Pools

RECEIVED
DEC 12 1984
OIL CONSERVATION
DIST. 3

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones, is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2,000 by top unit allowable for the Upper Gallup as determined by Rule 505 of the Division Rules and Regulations.

In accordance with the provisions of Rule 303-C, the supervisor of the Aztec District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A handwritten signature in dark ink, appearing to read "R. L. Stamets", with a long horizontal flourish extending to the right.

R. L. STAMETS,
Director
