13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Elm Ridge Resources, Inc. respectfully requests an extension on locating and repairing casing leaks in this well. We originally intended to work this well over sometime in April of 1999. However, due to currently depressed oil prices, we feel a workover would not be economically feasible at this time. Plugging the well would be giving up remaining reserves prematurely.
