13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Elm Ridge Resources has a rig in the area of the Marcus A-1 presently. We purchased this well in a non-productive state. We believe the well to have a hole in the tubing - we will determine the exact problem at the time we move a rig onto the well. We would like to request an extension in the time frame until February 2002. We are diligently working on other BLM demands and will not be able to meet the current deadline set.
