(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

01/07/91 Received verbal permission from Steve Mason to revise APD. Cement slurry that we will use in second stage of long-string cementing job is being adjusted. Halliburton has recommended change to improve compressive strength and increase bond. Plan to cement with 1286 sacks (1878 cubic feet) of 50/50 poz cement with 2% gel, 2% KCl, 12# gilsonite per sack. Circulate to surface. All volumes are contingent upon caliper logs.
