October 31, 1960

Ohio Government Mines

Well No. 1 is located 990 ft. from ^{100N}_S line and 990 ft. from ^{100E}_W line of sec. 20

NE SW SW Sec. 20
(1/4 Sec. and Sec. No.)

15N
(Twp.)

1E
(Range)

(Meridian)

Cornfield Canyon
(Field)

Sandoval
(County or Subdivision)

New Mexico
(State or Territory)

The elevation of the ^{ground}~~wellhead~~ above sea level is 5761 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Our notice of intention to drill for the above location was filed as Ohio Government Whelan #1. The correct well name should be Ohio Government Mines #1.

Please correct lease name on Form C-128 "Well Location and Acreage Dedication Plat" to read Ohio Government Mines #1.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Title Div. Production Superintendent

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

2. The second part of the report is a detailed description of the study area. It includes information about the location of the study area, the population of the study area, and the characteristics of the study area. It also discusses the data sources used in the study.

3. The third part of the report is a detailed description of the study results. It includes information about the findings of the study, the conclusions drawn from the findings, and the implications of the findings. It also discusses the limitations of the study and the need for further research.

4. The fourth part of the report is a detailed description of the study conclusions. It includes information about the overall findings of the study, the conclusions drawn from the findings, and the implications of the findings. It also discusses the limitations of the study and the need for further research.

5. The fifth part of the report is a detailed description of the study recommendations. It includes information about the recommendations made by the study, the reasons for the recommendations, and the implications of the recommendations. It also discusses the limitations of the study and the need for further research.

6. The sixth part of the report is a detailed description of the study references. It includes information about the sources used in the study, the authors of the sources, and the titles of the sources. It also discusses the limitations of the study and the need for further research.

7. The seventh part of the report is a detailed description of the study appendices. It includes information about the appendices used in the study, the contents of the appendices, and the locations of the appendices. It also discusses the limitations of the study and the need for further research.

8. The eighth part of the report is a detailed description of the study index. It includes information about the index used in the study, the contents of the index, and the locations of the index. It also discusses the limitations of the study and the need for further research.

9. The ninth part of the report is a detailed description of the study bibliography. It includes information about the bibliography used in the study, the contents of the bibliography, and the locations of the bibliography. It also discusses the limitations of the study and the need for further research.

10. The tenth part of the report is a detailed description of the study glossary. It includes information about the glossary used in the study, the contents of the glossary, and the locations of the glossary. It also discusses the limitations of the study and the need for further research.

11. The eleventh part of the report is a detailed description of the study acknowledgments. It includes information about the acknowledgments used in the study, the contents of the acknowledgments, and the locations of the acknowledgments. It also discusses the limitations of the study and the need for further research.

12. The twelfth part of the report is a detailed description of the study executive summary. It includes information about the executive summary used in the study, the contents of the executive summary, and the locations of the executive summary. It also discusses the limitations of the study and the need for further research.

13. The thirteenth part of the report is a detailed description of the study abstract. It includes information about the abstract used in the study, the contents of the abstract, and the locations of the abstract. It also discusses the limitations of the study and the need for further research.

14. The fourteenth part of the report is a detailed description of the study introduction. It includes information about the introduction used in the study, the contents of the introduction, and the locations of the introduction. It also discusses the limitations of the study and the need for further research.

15. The fifteenth part of the report is a detailed description of the study conclusion. It includes information about the conclusion used in the study, the contents of the conclusion, and the locations of the conclusion. It also discusses the limitations of the study and the need for further research.

16. The sixteenth part of the report is a detailed description of the study references. It includes information about the references used in the study, the contents of the references, and the locations of the references. It also discusses the limitations of the study and the need for further research.

17. The seventeenth part of the report is a detailed description of the study appendices. It includes information about the appendices used in the study, the contents of the appendices, and the locations of the appendices. It also discusses the limitations of the study and the need for further research.

18. The eighteenth part of the report is a detailed description of the study index. It includes information about the index used in the study, the contents of the index, and the locations of the index. It also discusses the limitations of the study and the need for further research.
