Dear Emery:

I trust this finds you well.

I just wanted to let you know that I took it upon myself to pick up a bunch of cuttings samples from the above captioned well, which as you probably know has reached a T. D. of 2027' and is now awaiting another rig. Have you any idea when they will resume activity out there?

You may get these samples the next time you are in Santa Fe as you'll need them for the cut up there. What I now have is not complete and lacks a few hundred feet of the last part drilled.

Kindest personal regards,

Eugene A. Chavez
