(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 2 is located 805 ft. from N line and 990 ft. from E line of sec. 28
SE 28 18 N 30 NORTH
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Torrejon Sandoval New Mexico
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6515 ft. Plugged after spudding, mudded, and cemented.
 DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Intended to drill well to production. Had only one rig to drill three wells, couldn't figure this one out how to get the one rig on three leases all drilling before Midnight Oct. 15th. (I was just thinking and there is no change for this, Pete Washington can figure how to comply with these problems). I'm Tired.

Mr. Mc Grath couldn't give me clearance, and I couldn't comply in time. No hard feeling's. Just don't appreciate the crazy decisions one made in Washington by my party.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
