W. W. Holmes  
c/o John H. Burton, Agent  
P.O. Box 1594  
Santa Fe, New Mexico

Dear Mr. Burton:

We have received a single copy of Federal Notice of Intention to Drill on your #1 Rorex Federal well, located in the NE<sup>1</sup>/<sub>4</sub> Section 23-18N-3W. This form was forwarded to us by the United States Geological Survey and we normally require two copies.

Will you please send us one additional copy of Notice of Intention to Drill and Form C-128.

We also note that you have neglected to mention in your casing program where it is intended to set and cement surface casing. Oil Commission Rules require that surface casing be run and cemented to the surface. Will you please amend your application to include the above.

Yours very truly

Emory C. Arnold  
Supervisor, District #3e
