Gentlemen:

A well record form for the above well, in 1962, indicates that the well was drilled to a total depth of 925 feet where it was completed as a small oil producer. However our records indicate that the well has not produced for several years, and it is evidently abandoned. If you have a plugging notice, will you please mail it to us so that we may make a copy? In the event that the well has not been plugged, will you please get a status report from the operator stating when he intends to plug and abandon this well?

Thank you.

Yours very truly,

*Emery C. Arnold*  
Emery C. Arnold  
Supervisor, District #3
