

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

July 23, 1964

Inland Crude, Inc.
Box 1528
Farmington, New Mexico

Gentlemen:

We have just been notified that your company has hauled approximately 880 barrels of oil from the Holmes Oil Company #1 Spencer-Federal Well, in the NW 1/4 Section 11-18N-3W, Sandoval County. Due to the fact that an allowable had never been requested, an allowable has not been assigned to this well. Therefore all production from the well and all the oil that has been run from the well constitutes illegal oil. In the event that your company is not acquainted with the statutes of the State of New Mexico in regard to the transportation of illegal oil I am mailing you a copy of the Rules and Regulations and call your attention to Section J, beginning on Page 49, and to Article 65-3-18 and 65-3-19 found on Page 81.

Any further violation of the above rules will result in immediate institution of legal proceedings under the above statutes. As you will note, we have notified the Holmes Oil Company as to what action should be taken in order to secure an allowable for the Spencer-Federal well. As soon as the assigned allowable has balanced the accumulated over production, oil may again be run from the well; however no further oil should be run until you have checked with this office as to the legal storage status.

Yours very truly

ECA:ks
