Dear Mr. Kendrick:

After sending in Form 9-331 asking permission to plug the above well, we decided to try and pump it for 30 days and see what we could do with it.

We secured a reliable person to pump it and after testing it for 30 days, it is making four barrels of oil per day with a certain amount of water. We have decided to continue pumping it for a while and see what it does.

We are sorry to have waited so long before letting you know just what we were doing on this well and trust this will meet with your approval.

Very truly yours,

J.W. Holmes
